EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald Brown on February 4, 2005.

The application has been amended as follows:

In the Specification, page 1, the first paragraph has been replaced with:

--This application is a divisional of U.S. Serial No. 10/106,687, filed on March 25, 2002, now U.S. Patent 6,666,626, which is a continuation-in-part of the application filed March 11, 2002, entitled "INSERTION APPARATUS FOR ATTACHING SLIDERS ONTO ZIPPER BAGS AND FILM".—

In claim 14, line 1, --a simultaneous plurality of— has been inserted after "feeding".

In claim 14, line 4, --simultaneous plurality of— has been inserted before "sliders" (first occurrence).

In claim 14, line 7, --simultaneous plurality of— has been inserted before "sliders" (first occurrence).

In claim 15, line 2, --simultaneous plurality of— has been inserted before "sliders."

In claim 17, line 3, --simultaneous plurality of— has been inserted before “sliders.”

In claim 18, lines 4, --simultaneous plurality of— has been inserted before “sliders.”

In claims 19-20, lines 1-2, “area for inserting said sliders onto a zipper” has been changed to --slider inserting area--

In line 20, line 2, a period (“.”) has been inserted at the end of the claim.

Remarks

2. The statement of priority was amended to reflect the issuance of the parent.
3. The amendment to claim 14 was made in light of the amendment and arguments in support thereof made in the parent application 10/106,687 dated June 20, 2003. The amendment was made to define over the Esper reference (U.S. Pat. 6,468,005), which discloses one-by-one feeding.
4. The dependent claims 15, 17, and 18, were amended to correspond to the amended claim limitation in claim 14, in order to provide a proper antecedent basis for these limitations.
5. The claim limitation in claim 19-20 of “area for inserting said sliders onto a zipper” was changed to correspond to the limitation language in claim 14 in order to provide proper antecedent basis. See *also e.g.*, claim 18 (having the same limitation).

Art Unit: 3726

6. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a method for feeding a simultaneous plurality of sliders comprising: "feeding said simultaneous plurality of sliders from said supply of sliders onto a sender track in response to a detected number of sliders on said sender track," in combination with the other claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
